and highlights of your project* *

The upgrading of our club room consisted of purchasing several items to make our facility more comfortable for our members and also the installation of two new "Honor" boards that help advertise the club whilst giving recognition to those already involved. These new Honor boards have already brought several members to the club and a increase in participation numbers. We are still actively seeking further sponsorship from local businesses to help promote the club.

The three new tables purchased for use when holding club meetings were badly needed and have made our monthly meetings more comfortable and alot more professional.

The main highlight for our project would have been the "Kids catch a fish day" and BBQ that was held at Casey Fields (a local park). The day saw an estimated 120 (including current members/volunteers) people enjoy the art of fishing and then enjoyed a free BBQ and drink provided by the club. Free give-away's of hats and fishing tackle also proved a hit with the kids. The weather was not kind however with showers/rain throughout the day but fun was had by all involved.

Advertising for the day was by the use of a letter drop conducted by all club members with posters also distributed at shopping centers in the local community and word of mouth through the community.

Word limit 250

Were you able to meet your aims as outlined in your Grants Application or the subsequent agreed Project Variation

The project was a success and introduced many new people to the angling club.

We have seen 17 new memberships and many more attend monthly meetings. Of these new members several are family memberships which see 4-5 people join the club under these memberships.

Many sponsors were found and the club gaining sponsorship for well over the grant amount we were given.

A new club logo (see attached) was created that was later used on the "give away"caps and polo shirts and then other club apparel that can be ordered by club members.

Word limit 100

How many people participated in the project

Between club members,sponsors and new community involvement an estimated 200+
